

York, says:

"It is not only probable, but certain, the sufferings in Belgium, Serbia and Armenia, which so deeply aroused the people of the United States, cannot even be compared with the misery that is in the Three Polands and Palestine. A large part of the population in these zones has been made homeless, is practically without food, and, while suffering from many diseases, is without med-

icine. United States Jews have already amongst their own people raised something like \$3,000,000. Much larger sums will have to be obtained, however, and it is the privilege of American people to join with their fellow citizens of the Jewish faith in demonstrating their interest."
